Name: FERTILISER ASSOCIATION OF NEW ZEALAND (FANZ)

[Full name of the person or organisation making the submission]:

This is a further submission in support of or opposition to submission 92 on Lake Rotorua Nutrient Management - Proposed Plan Change 10 to the Bay of Plenty Regional Water and Land Plan.

1. I do wish to be heard in support of my further submission.
2. If others made a similar submission I would be prepared to consider presenting a joint case with them at any hearing.
3. I am: [Please tick one]
 - A person representing a relevant aspect of the public interest. (Specify on what grounds you come within this category).
 - A person who has an interest in the proposal that is greater than the interest the general public has. (Specify on what grounds you come within this category).

On the following grounds:

FANZ is the organisation that represents the fertiliser industry as well as promoting best practice in the use of fertilisers.

FURTHER SUBMISSION POINTS:

Submission number <i>[Submission number of original submission as shown in the "Summary of Decisions Requested" report]</i>	Submitter name <i>[Please state the name and address of the person or organisation making the original submission as shown in the "Summary of Decisions Requested" report]</i>	Section reference (Submission point) <i>[Clearly indicate which parts of the original submission you support or oppose, together with any relevant provisions of the proposed plan change]</i>	Support/oppose	Reasons <i>[State in summary the nature of your submission giving clear reasons]</i>
Submission 92	Bay of Plenty Regional Council	Rule LR R7	Oppose	<p>FANZ oppose the submitter's wording of LR R7 (c):</p> <ul style="list-style-type: none"> - The current wording of the rule will give rise to uncertainty for Plan users, especially in regard to the use of the word 'may' as this cannot be measured. - FANZ support output control. Input control does not necessarily relate to the volume of nitrogen loss and is not 'effects' based. Addressing the farm system losses is effects based and provides for and encourages innovation and flexibility in farming operations, to provide greater efficiencies. <p>Amend to:</p> <p>There is no increase in effective area or nitrogen inputs from 29 February 2016 that may contribute to an increase in nitrogen loss onto, into or from land <u>from 29 February 2016</u></p>

Note: A copy of your submission must be served on the original submitter within 5 working days after making this further submission.
