- Map 16: Te Motu-Tapu-a-Tinirau, Mokoia Island – Lake Rotorua
- Map 17: Awahou Village Deprivation Index Map
- Map 18: Te Tumu Kaituna – Papahikahawai, Maketu

Rohe /Whenua

This map does not depict a tribal boundary of define a total area of mana whenua. This map includes areas and sites that are important to Rangiwewehi for a range of reasons including historical connections through to events connected to Treaty of Waitangi claims and Crown actions. In some of these areas, Rangiwewehi do not have exclusive or predominant interests and acknowledge that in such areas, other groups hold mana whenua.

The Index of Deprivation is derived from the following 2006 census information (in order of decreasing weight):

1. Income: People aged 18-59 receiving a means tested benefit
2. Employment: People aged 18-59 unemployed
3. Income: People living in equivalised* households with income below an income threshold
4. Communication: People with no access to a telephone
5. Transport: People with no access to a car
6. Support: People aged less than 60 living in a single parent family
7. Qualifications: People aged 18-59 without any qualifications
8. Owned Home: People not living in own home
9. Living Space: People living in equivalised* households below a bedroom occupancy threshold

* Equivalisation: Method used to control for household composition.

Index of Deprivation comparisons at meshblock level over time should not be attempted.

Caution should be exercised in making inferences between the relative magnitude of deprivation eg the difference in deprivation between deciles 5 and 6 will
