SUBMISSION POINTS:

| Page No | Reference (e.g. Policy title, Methods, Objectives, Annexes) | Support/oppose | Decision Sought Say what changes to the plan you would like | Give Reasons |
|---------|--|----------------|--|---|
| 9 | AQ R15 1(a) | Support | No change. | Agriculture's discharge should not be dangerous or noxious, offensive or objectionable beyond the boundary of the subject property as we collect our drinking water from our roof 10m from the boundary and garden organically. |
| 10 | AQ R15 4a(i) | Support | No change | Notification no later than 24hrs because we need daylight hours to prepare water tank and cover gardens before spraying and we leave house for work before sunrise. |
| 9 | AQ R15 2(e) and (5) | Support | No change | Spray risk management plan being prepared by the owner focussed so that risks to sensitive sites are identified and strategies to avoid contamination realised. Support it being more available to affected parties. |
| 20 | Definition of Terms | Support | No change. | Sensitive areas should also include organic farms & household water supplies (including roofs from which water supply is obtained) as we collect water from our roof 10m from boundary from orchard with no shelter belt. |
