

A decorative graphic on the left side of the slide. It features a large, light blue triangle pointing right, with a series of white concentric lines forming a stylized arrow or path. Below this, there is a red triangle pointing left, also composed of concentric lines, creating a symmetrical, geometric design.

Te Arawa Lakes Trust Report

The background of the slide is a photograph of a lake, likely Lake Taupo, with a wooden walkway or bridge extending into the water. The sky is a deep red, and the water is a calm, greyish-blue. The overall mood is serene and natural.
