Issues and actions

1) Brainstorm issues
Template 1a, 1b

2)   What is the issue?

Stormwater

3)   What do you already know?
Template 1a, 1b

- Yucky stuff goes into the lake
- People pour wrong stuff down

Reflection

What difference did it make?

What else do we need to know?

Are our questions useful?

8)   What action will we take?
Template 4 and 5

- Mark drains not marked around our area
- Make up a play to help teach people
- Test the water
- Put filter trap in drain

What options are there?

What is the best option? Template 3

What did this tell us?

Are our questions answered?

Have we got enough ideas?

4) What questions do we have?

- How does the stormwater get to the lake?
- Is it cleaned in any way?
- Who looks after it?

7)   What can we do to help?
Template 1a, 1b

- Block drains
- Mark drains
- Tell people
- See what goes down drain

Do we have any other questions? If yes, go to 5.

6)   What did we find out?
Template 1a, 1b

- Stormwater runs straight to the lake
- Stormwater not cleaned

5)   How can we answer our questions?
Template 2a, 2b, 2c

- Local council
- Library
- Museum
- Internet
