

27 April 2016

This submission is on Proposed Plan Change 10 (Lake Rotorua Nutrient Management) to the BOP regional Water and Land Plan

I am opposed to the proposed plan change 10.

My name is Damon Campbell – I am in support of the Federated Farmers submission

I believe the proposed rules using the “best science available” is not equitable on rural land owners and farmers and independent science reviews are necessary – the health of the lake is an intergenerational problem and needs an intergenerational solution.

If others make a similar submission, I will consider presenting a joint case with them at a hearing.
