Subject: Submission on Lake Rotorua Nutrient Management - Proposed Plan Change 10 to Regional Water and Land Plan
Date: Wednesday, 27 April 2016 2:55:51 p.m.

Dear Council members,

I have farmed my property at 99 Dansey road for 49 years during that time significant areas have been retired from grazing and other areas planted in pines.

This has had a serious effect on the viability of the farming operations. I support the Federated Farmers in their submission.
