

Proposed Plan Change 13 (Air Quality)Submission.

Submitter No. 6

Geoff Oliver.

Points for discussion ....

RMA working well in present state.Deals with all issues in the industry that are an objectionable,and not in keeping with present RMA guide lines.

Meadow Mushrooms...Shut down,and fined...

Te Mata Mushrooms....Just been fined,on going issues,again doing things wrong with regards to processes around stage one composting.

Slab composting.....open air activity....old technology....

Drum composting.....stops all problems that have been happening in industry.To explain process....

Western Bay Council...Mr Martelli,been to farm,full of praise for technology,beeing used.Commented that if every farm was like Olivers Mushroom farm would help avoid issues facing the other growers.

Organic activity,....Olivers Mushrooms growing with out those nasty's...Chemicals....
