

Bay of Plenty Regional Council
Tauranga General Constituency
Electing 5 Regional Councillors

Stuart CROSBY

Independent

My principal place of residence is in the Tauranga General Constituency area.

In this time of significant disruption and uncertainty, as well as major reforms by the government, there is no substitute for knowledge, experience and communication skills

as we journey together into the future.

I am an experienced local government practitioner with a reputation as a safe pair of hands, staying calm under pressure and prepared to make the hard, but right decisions.

I operate by listening, thinking then acting. I stand for providing for today and planning for the future through community partnerships in cohesion with the council.

For Tauranga, I will focus on addressing the failing transport system, which includes the bus network and enhanced environmental outcomes.

By using my extensive public sector and business background, I will only support effective investment that delivers positive outcomes for people and the environment.
