# 1 Introduction

This policy outlines the fees and charges associated with a range of services provided by the Bay of Plenty Regional Council. Including:

- Receiving and processing resource consent applications<sup>1</sup>;
- Monitoring and enforcing compliance with resource consents, National Environment Standards and Regional Plan Rules, under the Resource Management Act 1991;
- Functions associated with the Floodway and Drainage Bylaw<sup>2</sup>;
- Port charges (harbour dues)<sup>3</sup>; and
- Any cost recoverable work that is performed under any other power or function of the Council.

Regional Council uses these fees and charges to recover the costs of undertaking the respective activities, in order to ensure that we can be adequately equipped to do so, and that at least a portion of the cost is met by those individuals and organisations responsible for benefitting from those activities, rather than the broader ratepayer. This principle is directly provided for through the associated legislation.

This policy remains in effect until such time as it has been reviewed, completed all consultation requirements and has been amended or revoked by Council resolution.

## 2 **Resource Management Act charges**

Under the RMA, the Bay of Plenty Regional Council (Council) is responsible for managing the use of a wide range of natural resources including air quality, geothermal energy, groundwater and surface water. We do this by:

- Processing and administration (e.g.in regard to regional plans and resource consents)
- Monitoring and supervision of resource consents
- Monitoring of natural resources.

The RMA gives Council the power to recover the 'reasonable' costs associated with these functions using charges made under section 36. The RMA charges covered by this policy include:

- Application charges
- Discount on administrative charges
- Charges for objections
- Annual consent charges
- Travel charges

<sup>&</sup>lt;sup>1</sup> The Resource Management Act (RMA) and Building Act charges that apply from 1 July 2021. Authority to set these charges falls under section 36 of the Resource Management Act and section 243 of the Building Act.

<sup>&</sup>lt;sup>2</sup> The Floodway and Drainage Bylaw Fees. Authority to set these Fees falls under section 150 of the Local Government Act (2002), and in particular, section 150 (3)(b) allows these fees to be prescribed outside of the Bylaw.

<sup>&</sup>lt;sup>3</sup> Authority to set these Fees falls under section 33R of the Maritime Safety Act and in accordance with section 150 of the Local Government Act (2002), and section 150 (3)(b) allows these fees to be prescribed outside of the Bylaw.

## 2.1 Application charges

The charges in the following tables relate to applications for new resource consents, transfers or renewals of consents, certificates of compliance and the preparation or change to a policy statement or plan. The majority of these charges are deposits, with any additional costs charged on an actual and reasonable basis. An estimate of these additional costs can be provided on request.

#### 2.1.1 **Applications for resource consents**

Resource consents are processed as either non-notified, limited notified or publicly notified. The majority of resource consents are processed as non-notified. Council charges consent applicants for any costs incurred when processing resource consent applications.

Charges include the costs of technical assessment, RMA assessment, peer review work and administration costs.

We charge the actual and reasonable costs for processing a consent application, apart from a limited number of applications which are subject to a fixed fee (Table2). Actual and reasonable costs include, but are not limited to:

- Staff time spent processing a resource consent at the staff charge out rates detailed in Schedule A
- Contractor's or consultant's time based on the charge out rate of the contractor or consultant engaged to do the work
- Disbursements which may include travel costs, expert advice, photocopying and hearing costs

Before Council begins to process an application, we require the deposit (Table1) or fixed application fee (Table 2) to be paid in full.

Please note that application charges apply even if your consent application is declined or you withdraw your application.

## 2.1.2 Application charges for non-notified resource consents

Resource consent applications are processed as "non-notified" if their effects are minor and anyone who might be affected by the activity agrees to the consent being granted and notification is not precluded. The application deposits are outlined in Table 1. Where consent processing costs exceed the deposit an additional charge for actual and reasonable costs will be made.

## Table 1General resource consent application deposits

| Consent type   | Deposit<br>Incl GST<br>(Excl GST) |
|--|-----------------------------------|
| <ul><li>Tier 1</li><li>Certificate of compliance</li><li>Re-consenting existing unchanged lake structures</li></ul>  | \$775.00<br>(\$673.91)            |
| Lapsing period extensions Tier 2   |                                   |
| <ul> <li>Onsite effluent discharge (septic tanks)</li> <li>Discharge farm dairy effluent</li> <li>Remediation of contaminated land</li> </ul>                          |                                   |
| <ul> <li>Multiple bores (more than three) 4</li> <li>Changes, to or cancellation of consent conditions</li> </ul>  | \$1,770.00<br>(\$1,539.13)        |
| <ul> <li>Rotorua wood burner</li> <li>Review of consent conditions (deposit fee is payable by the 20th of the month following service of notice by Council)</li> </ul> |                                   |
| Transfer of consent to another site or another person at another site  | <b>#0.700.00</b>                  |
| Tier 3<br>All other consent categories   | \$2,700.00<br>(\$2,347.83)        |

A limited number of consents are subject to a fixed application fee with no additional costs payable, as detailed in Table 2.

## Table 2Fixed consent application fees

| Consent type  | Fixed charge<br>Incl GST<br>(Excl GST) |
|---|--|
| OSET approval inspection fee  | \$50.00<br>(\$43.48)                   |
| Land use consent to construct between 1 to 3 geotechnical, freshwater bores or domestic geothermal bores (includes compliance monitoring charges) | \$485.00<br>(\$421.74)                 |
| Transfer of consent to another person at the same site where a complete application is submitted $^{\rm 5}$                                       | \$170.00<br>(\$147.83)                 |

<sup>&</sup>lt;sup>4</sup> Consent applications for one, two or three bores are subject to a fixed fee (Table 2)

<sup>&</sup>lt;sup>5</sup> Where an incomplete application for a 'transfer of consent to another person at the same site' results in more than 1.5 hours of staff time being required to process the transfer, actual and reasonable costs will be charged to the transferee for the additional time required to process the incomplete application

## 2.1.3 **Charges for limited and publicly notified resource consents**

When an application is notified and proceeds to a hearing, a further charge is payable as detailed in Table 3.

## Table 3Limited notified or publicly notified resource consent deposits

| Resource consent process                                  | Fixed charge<br>Incl GST<br>(Excl GST) |
|---|--|
| Limited notified applications which proceed to a hearing  | \$5,000.00<br>(\$4,347.83)             |
| Publicly notified applications which proceed to a hearing | \$10,000.00<br>(\$8,695.65)            |

Costs for hearing committee members and commissioners will be recovered from applicants at their set charge-out rate. Disbursements will be charged on an actual and reasonable basis.

## 2.1.4 **Application charges for the preparation of or change to a plan or policy statement**

Applicants will pay a deposit in advance for any requests for a change to an existing regional plan or policy statement, or for the preparation of any new plan or policy statement. If a change to an existing regional plan or policy statement, or new plan request is deemed complex, a deposit of \$50,000 (including GST) will be payable at the discretion of the General Manager Strategy.

| Table 4 | Deposit for the preparation of or change to a plan or policy statement |
|---------|--|
|---------|--|

|   | Deposit<br>Incl GST<br>(Excl GST) |
|---|-----------------------------------|
| Standard deposit  | \$5,000.00<br>(\$4,347.83)        |
| Deposit for complex plan or policy statement changes or new plan requests | \$50,000.00<br>(\$43,478.26)      |

Where costs exceed the deposit, an additional charge for actual and reasonable costs will be made. Actual and reasonable costs include, but are not limited to:

- Staff time spent at the staff charge out rates detailed in Schedule A
- Contractor's or consultant's time based on the charge out rate of the contractor or consultant engaged to do the work
- Disbursements which may include travel costs, expert advice, photocopying and hearing costs

#### 2.1.5 **Charges for permitted marginal or temporary activities**

The cost for processing a request to issue a notice stating whether an activity is a permitted marginal or temporary activity will be charged based on actual staff time spent on an actual and reasonable basis, with the first hour being provided free of charge. Staff charge-out rates are detailed in Schedule A.

#### 2.1.6 **Exemptions from application charges and zero fee activities**

The exemptions in Table 5 are in accordance with decisions adopted by Council at its meeting on 24 June 2021.

#### Table 5Exemptions and zero fee activities

| Consent category  | Charge<br>Incl GST |
|---|--------------------|
| Activities listed in regional plans that have zero fee  | \$0                |
| Application to reduce the allocated rate of a surface water take consent or allocated annual volume of groundwater take consent which reduces the environmental effect of that take | \$0                |

## 2.2 **Discount on administrative charges**

The Resource Management (Discount on Administrative Charges) Regulations 2010, commonly called the 'Discount Regulations', sets a default discount policy for resource consents that are not processed within statutory timeframes. Council's policy is to adhere to the Discount Regulations.

The Discount Regulations set out a discount of 1% of the total administrative charges for every working day an application remains unprocessed beyond the statutory timeframes specified in the RMA, up to a maximum of 50% (i.e. 50 working days).

The Discount Regulations apply to the processing of most resource consent applications or applications to change consent conditions. They do not apply to the following:

- Applications for extensions to consent lapsing periods Local authority initiated consent reviews
- Local authority-initiated consent reviews.
- Certificates of compliance.
- When an applicant withdraws a resource consent application.
- If the application is to replace an existing consent and is granted prior to the existing consent expiring.

#### 2.3 Charges for objections

If a person who has lodged an objection, requests that the objection be considered by a hearings commissioner, Council may recover charges associated with the objections being considered and decided in accordance with that request. Those costs will be recovered on an actual and reasonable basis. Council may ask the commissioner(s) to make a recommendation as to whether it would be appropriate to remit (i.e. not charge) any of these costs.

## 2.4 Annual consent charges

The annual consent charge payable by the consent holder in relation to each current resource consent is made up of:

- Administration charge
- Compliance/supervision charge (referred to as 'compliance monitoring charge')
- Data and science charge

The administration charge covers routine administration costs such as consent database and electronic file system maintenance, compiling and monitoring accounts, correspondence to consent holders (e.g. expiry reminder notifications) and general administration and enquiries.

For those consents where compliance monitoring is charged on an actual and reasonable basis, the monitoring charges will be invoiced according to the frequency of inspections (e.g. consents inspected more than once during the year will receive monitoring invoices during the year in addition to the annual consent charge).

#### 2.4.1 Administration charge

#### Table 6Administration charge

|   | Fixed charge<br>Incl GST<br>(Excl GST) |
|---|--|
| Standard charge   | \$150.00<br>(\$130.43)                 |
| Multiple consents: additional charge per consent holder where separate invoicing and correspondence is required | \$130.00<br>(\$113.04)                 |

## 2.4.2 **Compliance monitoring charges**

Compliance monitoring charges are based on the actual and reasonable costs of carrying out compliance monitoring of consents. Fixed and variable charges are made up of the staff time to carry out an inspection (if required), audit any monitoring information provided by consent holders, follow up any non-compliance and report back to consent holders (if required).

Actual and reasonable costs include, but are not limited to:

• Staff time spent processing a resource consent at the staff charge out rates detailed in Schedule A

- Contractor's or consultant's time based on the charge out rate of the contractor or consultant engaged to do the work
- Disbursements which may include travel costs, expert advice, photocopying and hearing costs.

It is Council policy that the majority of costs of compliance monitoring should be recovered from consent holders.

| Table 7 | Compliance monitoring charges |
|---------|-------------------------------|
|---------|-------------------------------|

| Compliance monitoring charge   | Incl GST<br>(Excl GST) |
|--|------------------------|
| Fixed fee compliance monitoring charges <sup>6</sup>                                       | Schedule 1             |
| Charges for monitoring under the National Environmental Standards as listed in Schedule 3A | Actual and reasonable  |
| All other consents not listed in Schedule 1A or 3A   | Actual and reasonable  |
| Second and subsequent inspections as necessitated by previous non-<br>compliance           | Actual and reasonable  |
| Auditing information required by consent conditions or participation in peer review panels | Actual and reasonable  |
| Fixed administration fee relating to late submission of records and monitoring reports     | \$265.00<br>(\$230.43) |

#### 2.4.3 Data and Science Charge

The data and science charge is a fixed annual fee which covers a portion (as specified in the Revenue and Financing Policy) of the Council's costs of carrying out regional and impact monitoring and specific investigations into the state of the environment. These monitoring requirements are driven, in part, by the consents process and consent holders: Council needs to understand and monitor resources to ensure consent conditions are set appropriately (e.g. water allocation limits) and to safeguard future access to resources. This requirement (and the associated charge) applies regardless of whether a consent holder fully exercises their consent e.g. the monitoring still has to take place even if a consent holder chooses not to take any or all of their consented water allocation.

#### Table 8Data and science charge

| Data and science charge |                    |
|-------------------------|--------------------|
| All applicable consents | Schedules 1B - 12B |

## 2.4.4 **Exemptions from annual charges**

The exemptions in Table 9 are in accordance with decisions adopted by Council at its meeting on 24 June 2021.

<sup>&</sup>lt;sup>6</sup> Where the time spent processing monitoring returns exceeds the standard time covered by the fixed charge specified in Schedule 1A (which is based on staff charge out rates in Schedule A), any additional time will be charged on an actual and reasonable basis.

## Table 9Exemptions from annual consent charges.

| Consent category  | Exempt from           |
|---|-----------------------|
| Long term consents with an inspection frequency of 10 years or more unless an inspection has been carried out (in which case the consent holder is charged as per Schedule 1A or 2A)  | Administration charge |
| "Consequential" consents such as the discharge permit in an activity that involves a diversion and discharge, or the discharge permit in an activity that involves taking and discharging water (e.g. to heat a pool). To qualify, the "consequential" consent must occur as a natural consequence of the primary activity and have no significant environmental effect compared to primary consent | Administration charge |

# 3 Building Act Charges

Under the Building Act 2004, Bay of Plenty Regional Council (BOPRC) is responsible for functions relating to dams. For efficiency and cost reduction reasons, BOPRC has transferred the following building consent authority functions for dams to the Waikato Regional Council<sup>7</sup>:

- Processing of building consents
- Inspection processes
- Issuing dam code compliance certificates
- Issuing compliance schedules.

Please contact Waikato Regional Council or see its website <u>www.waikatoregion.govt.nz/damsafety</u> for relevant up-to-date fees and charges for these areas.

Section 243 of the Building Act 2004 enables BOPRC to recover costs through imposing fees or charges for the functions not delegated to Waikato Regional Council. The charges have been set using the principle that the full cost of the service provided is to be recovered. Any costs in addition to charges specified in Table 11 will be on an actual and reasonable basis.

<sup>7</sup> Memorandum with Waikato Regional Council (WRC) dated 6 March 2009 (WRC document 1329516), updated with WRC 1 June 2015 (WRC document 3165770].

## Table 10Building Act charges

| Activity   | Deposit<br>Incl GST<br>(Excl GST) |
|--|-----------------------------------|
| Administration cost for Register of Dams                           |                                   |
| Dam potential impact classification                                | \$240.00                          |
| Dam safety assurance programme                                     | (\$208.70)                        |
| Annual dam compliance certificate                                  |                                   |
| Review   |                                   |
| Review of potential impact classifications submitted by dam owners | Actual and                        |
| Review of dam safety assurance programme                           | reasonable costs                  |
| Building consent for dams  |                                   |
| Project Information Memorandum (PIM)                               | \$165.00<br>(\$143.48)            |
| Certificate of acceptance  |                                   |
| Dam valued up to \$20,000  | \$585.00<br>(\$508.70)            |
| Dam valued between \$20,000 and \$100,000                          | \$2,345.00<br>(\$2039.13)         |
| Dam valued over \$100,000  | \$4,490.00<br>(\$3904.35)         |
| Compliance and other functions                                     |                                   |
| Standard labour cost and extra cost of expert advice               | Actual and reasonable costs       |

## 4 Miscellaneous administrative charges

Under sections36(1)(e), 36(1)(f) and 36(1)(g) of the RMA and section13 of the Local Government Official Information and Meetings Act 1987, Council is able to charge for the provision of information in respect of plans and resource consents, the supply of documents and any kind of charge authorised by regulations.

## Table 11Miscellaneous administration charges

|                      | Charge<br>Incl GST                               |
|----------------------|--|
| Information Requests |  |
| Administration fee   | Actual and reasonable costs with first hour free |
| Photocopying         |  |
| A4 (black and white) | 6c per page                                      |
| A3 (black and white) | 10c per page                                     |
| A4 (colour)          | 50c per page                                     |
| A3 (colour)          | 75c per page                                     |

# 5 Enforcement

The cost of issuing an abatement notice will be charged to the holder of the consent, even if the notice itself is issued to a representative of the consent holder (e.g. farm manager, contractor, etc.). This charge is for generating and issuing the notice and does not include any additional costs associated with non-compliance, which will be charged on an actual and reasonable basis. Actual and reasonable costs include, but are not limited to:

- Staff time to carry out the inspection and prepare reports etc. at the staff charge out rates detailed in Schedule A
- Associated disbursements such as travel costs, sampling and testing costs and specialist advice

| Table 12 | Enforcement charges |
|----------|---------------------|
|----------|---------------------|

| Compliance monitoring charge | Fixed charge<br>Incl GST<br>(Excl GST) |
|------------------------------|--|
| Issue of an Abatement Notice | \$250.00<br>(\$217.39)                 |

# 6 Floodway and Drainage Bylaw Fees

The Bay of Plenty Regional Council Flood Protection and Drainage Bylaws 2020 are developed under the Local Government Act 2002, the Land Drainage Act 1908 and the Soil Conservation and River Management Act 1941. Authority to set these Bylaw Fees falls under section 150 of the Local Government Act (2002), and in particular, section 150 (3) (b) allows these fees to be prescribed outside of the Bylaw. Council has elected to use this separate process to allow for fees to be updated without a full review of the Bylaw. Fees have been set at a level to cover the cost of service and overheads.

## **Bylaw Authority Application Fees**

The Regional Council Bylaws outlines the process for gaining Bylaw Authority for undertaking certain activities near flood and drainage assets. This authority is processed by Council through a Bylaw Authority application process.

Council has a waived the application fee for the 2020 Flood Protection and Drainage Bylaws. Staff time will be charged at the rates outlined in schedule A.

## **Enforcement Costs**

Pursuant to the Local Government Act 2002, Council has the ability recover costs for damage of assets, and removal of illegal works affecting assets.

#### Table 13Cost recovery

| Cost<br>recovery                              |   |  | Local Government Act<br>clause(s)       |
|---|---|--|---|
| Costs for<br>remedying<br>damage**            | Liability for costs<br>associated with repair,<br>replacement, and/or<br>remediation. Plus<br>reasonable administration<br>and supervision charges. | Recoverable costs in the District<br>Court | LGA 2002 s175 and s176 LGA<br>2002 s187 |
| Removal of<br>works in<br>breach of<br>Bylaws | Liability for costs<br>associated with removal and<br>remediation. Plus<br>reasonable administration<br>and supervision charges.                    | Recoverable costs in the District<br>Court | LGA 2002 s163<br>LGA 2002 s187          |

#### Table 14Prosecution

| Prosecution   | Local Government Act<br>clause(s)   |   |                           |
|---|---|---|---------------------------|
| Any person who commits an<br>offence under this Bylaw shall<br>be liable to be prosecuted and<br>liable to a fine | Fine not exceeding<br>\$20,000.   | Recoverable costs in the District Court | LGA 2002 s242             |

## 7 **Port Charges**

The Bay of Plenty Regional Navigation Safety Bylaw is developed under section 33 of the Maritime Transport Act and in accordance with section 150 of the Local Government Act (2002). Authority to set fees for this Bylaw Fees falls under section 33R of the Maritime Transport Act and in accordance with section 150(3) to (6) of the Local Government Act. Section 150 (3)(b) of the Local Government Act allows fees to be prescribed outside of the Bylaw. Council has elected to use this separate process to allow for fees to be updated without a full review of the Bylaw.

This update applies to the Port Charges (Harbour Dues) set in the Navigation Safety Bylaw schedule 7 applies from 1 July 2021. All other fees, charges, and penalties in the Bylaw remain unchanged.

Port Charges (Harbour Dues) for each vessel exceeding 1,000 gross tonnage, \$17.65 excluding GST per 1,000 gross tonnage.

# 8 General matters

- (a) Charges will be payable on the 20th of the month following the month the invoice was issued e.g. invoices issued in July will be due on 20th August.
- (b) Where charges are deposits, applicants will be charged all actual and reasonable costs above the deposit.
- (c) Actual and reasonable costs include, but are not limited to staff time (see Schedule A) travel costs, advertising, peer review, meeting and hearing costs, commissioner charges, disbursements and costs of consultants.
- (d) Travel costs will be charged for travel time (at the staff charge out rates and mileage at the applicable IRD mileage rate. Travel costs will be included on the same basis as part of any request for enforcement costs to the Courts.
- (e) Staff time will be charged to the nearest 15 minutes, with a minimum charge of 15 minutes.
- (f) Where the deposit fee exceeds the processing costs by \$25 or more, the difference will be refunded to the applicant.
- (g) In accordance with section 36 AAB(2) of the RMA and section 243(2) of the Building Act, Council may decline to perform the action to which the charge relates until the charge has been paid in full, with the exception of those noted in section 36 AAB(3) of the RMA.
- (h) Where a consent application is withdrawn, any actual and reasonable costs incurred will be charged.
- (i) If an activity is consented during the year which is not accommodated on the existing compliance monitoring and data and science schedules (schedules 1A – 12B), an interim charge will be invoiced based on the actual and reasonable costs to Council of carrying out the monitoring of the consent.
- (j) When a consent is issued part way through the financial year, the compliance monitoring and data and science charges will be on a pro-rata basis, but in all cases the full annual administration charge will first be payable.
- (k) Where a consent is varied during the financial year to which this policy applies, any change in compliance monitoring and data and science charges will apply on a pro-rata basis from when the variation is approved.
- (I) When a consent expires or is surrendered or lawfully terminated during the year and the activity ceases, then in any case the full annual administration charge will apply and the remainder of the annual consent charge will be on a pro-rata basis having regard to the compliance and data and science monitoring that has been undertaken.
- Where a consent expires or is surrendered or lawfully terminated during the course of a
   (m) year but the activity continues and is subject to a renewal process, then the full annual consent charge shall apply.

Council may remit any charge referred to in this Charges Policy, in part or in full, on a

 (n) case by case basis, and solely at Council's discretion (see section 36 AAB(1) of the RMA). Council will remit OSET charges for Marae.

Council will recover the actual and reasonable costs of investigating and reportingsubstantiated complaints relating to consented activities.

Provisions pertaining to private plan changes under the RMA apply and the charging or (p) provision of payment does not infer approval or acceptance of any plan change request.

Fees and Charges Policy – Adopted June 2023

- (q) Holders of consents to take and/or discharge geothermal water and or contaminants will be invoiced separately for actual and reasonable costs of monitoring of temperature and flow, where such monitoring is required to be carried out by the consent holder, but is not carried out by the consent holder.
- (r) Council may identify matters unique to a particular consented activity which result in a higher risk to the environment and, as such, more frequent inspections may be required than are outlined in the corresponding activity in Schedule 2. In these cases, Council will provide written notice to the consent holder advising of the increased inspection frequency, and the cost of additional inspections will be recovered on an actual and reasonable basis.

## 9 Schedules

- Schedule A Charges for staff and consultants
- Schedules 1A, 2A and 3A Compliance monitoring charges
- Schedules 1B to 12B Data and science charges

# Schedule A - Charges for staff, consultants and contractors

| Group   | Hourly rate<br>Incl GST<br>(Excl GST) |  |  |
|---|---------------------------------------|--|--|
| Administration/Coordinator  | \$140.00<br>(\$121.74)                |  |  |
| Officers/Planners   |                                       |  |  |
| Senior Officers/Planners  | <b>#000.00</b>                        |  |  |
| Engineers/Scientist/Regulatory Project Officer (RPO)                      | \$200.00<br>(\$173.91)                |  |  |
| External contracted Compliance Monitoring Officer (externally contracted) | (\$173.91)                            |  |  |
| Maritime Officer  |                                       |  |  |
| Team Leaders/Senior RPO/Works Engineer/Senior Maritime Officer            |                                       |  |  |
| Senior Engineer/Senior Scientist/Harbourmaster                            | \$220.00<br>(\$191.30)                |  |  |
| Pou Ngaio (Technical/Cultural RMA Specialist)                             | (\$101.00)                            |  |  |
| Managers/Regional Harbourmaster/Engineering Manager                       | \$325.00                              |  |  |
|   | (\$282.61)                            |  |  |
| Consultants/Contractors   | As charged by consultant/contractor   |  |  |
| Regional Council staff mileage  | Current applicable IRD rate           |  |  |

Note: Some positions may not be listed. In such cases the charge will be calculated from actual time multiplied by the most appropriate charge out rate listed above.

# **Compliance monitoring charges**

# Schedule 1A – Consents subject to fixed fee compliance monitoring charges

| Compliance<br>category               | Code         | Inspection<br>frequency | Comments  | Annual Charge<br>Incl GST<br>(Excl GST) |
|--------------------------------------|--------------|-------------------------|---|---|
| Air Discharge -<br>small industry    | Air min      | 2 yearly                | Small operations with a low risk when<br>managed well for example sandblasters,<br>spray painters, etc.   | 200.00<br>(173.91)                      |
| Air Discharge -<br>medium industry   | Air med      | 1 yearly                | Medium sized sites with a potential to<br>result in moderate environmental impacts<br>if not managed well. May require more<br>significant reporting (e.g. monthly)   | \$1,185.00<br>(\$1,030.43)              |
| Dairy Sheds<br>- low risk            | DairyLR      | 3 yearly                | PI systems: Adequate pond storage (lined<br>in Rotorua lakes), appropriate irrigator<br>technology for soil types and slopes, good<br>compliance history  | \$85.00<br>(\$73.91)                    |
| Dairy Sheds -<br>moderate risk       | DairyMR      | 2 yearly                | All disposal systems that don't meet<br>DairyLR or DairyHR criteria, but have<br>good compliance history and systems that<br>can be managed in a way that ensures<br>compliance   | \$170.00<br>(\$147.83)                  |
| Dairy Sheds -<br>high risk           | DairyHR      | 1 yearly                | Any consent authorising a discharge to<br>surface waters, or other High Risk dairy<br>systems that don't meet DairyLR or<br>DairyMR criteria  | \$395.00<br>(\$343.48)                  |
| Industrial<br>Discharges -<br>small  | ID Min       | 2 yearly                | Small sites with small discharges and a low risk when managed well  | \$200.00<br>(\$173.91)                  |
| Industrial<br>Discharges<br>- medium | ID Med       | 1 yearly                | Medium sites with potential to result in moderate effects if not managed well   | \$1170.00<br>(\$1017.39)                |
| Landfills - closed                   | Landfill min | 3 yearly                | Closed landfills and managed cleanfill sites  | \$235.00<br>(\$204.35)                  |
| Transfer Stations                    | Transfer     | 1 yearly                | Operational Transfer Stations   | \$1,185.00<br>(\$1,030.43)              |
| Timber Treatment<br>Plant            | TTP          | 1 yearly                | Timber treatment plants which generally<br>have tight environmental controls with a<br>significant amount of reporting. Risk is<br>high if uncontrolled discharges occur  | \$790.00<br>(\$686.96)                  |
| Minor Dams                           | Dams         | 5 yearly                | Small dams (e.g. farm dams). Does not<br>include hydro-electric scheme dams   | \$95.00<br>(\$82.61)                    |
| Industrial<br>Abstraction<br>- minor | Ind Min      | 5 yearly                | As most of these water takes will fall under<br>the NER, inspections <sup>8</sup> can be reduced as<br>records will be a good indicator of<br>compliance. Generally inspect the<br>industrial takes at the same time as the<br>industrial discharge consents are<br>inspected | \$125.00<br>(\$108.70)                  |

<sup>&</sup>lt;sup>8</sup> Resource Management (Measurement and Reporting of Water Takes) Regulations 2010.

| Compliance<br>category  | Code               | Inspection<br>frequency | Comments  | Annual Charge<br>Incl GST<br>(Excl GST) |
|---|--------------------|-------------------------|---|---|
| Municipal<br>Abstraction<br>- minor   | MA Min             | 5 yearly                | These water takes will generally fall under<br>the NER, and as such records will be a<br>good indicator of compliance   | \$220.00<br>(\$191.30)                  |
| Geothermal<br>Abstraction<br>excluding Rotorua<br>field   | GeoO               | 3 yearly                | All geothermal abstractors who are not<br>large commercial operators, and are<br>located outside of the Rotorua Geothermal<br>field   | \$405.00<br>(\$352.17)                  |
| Geothermal<br>Abstraction -<br>Rotorua field only   | GeoR               | 3 yearly                | All geothermal abstractors who are not<br>large commercial operators, and are<br>located inside of the Rotorua Geothermal<br>field. Cost of undertaking temp and flow<br>charged at A+R if not done by consent<br>holder              | \$230.00<br>(\$200.00)                  |
| Non-consumptive<br>Geothermal<br>Abstractors<br>(Warm Water)<br>Bores Tauranga                              | Warm               | 3 yearly                | All warm water abstractors in the Western<br>Bay area who are not Industrial or<br>Municipal abstractors  | \$230.00<br>(\$200.00)                  |
| Consumptive<br>Wateruse (surface<br>water,<br>groundwater and<br>warm water) -<br>Telemetered Low<br>Risk   | CW TLR             | 5 yearly                | Consumptive abstraction which takes water<br>from a single abstraction point and<br>provides water use records via telemetry  | \$190.00<br>(\$165.22)                  |
| Consumptive<br>Water use<br>(surface water,<br>groundwater and<br>warm water) -<br>Telemetered High<br>Risk | CW THR             | 3 yearly                | Consumptive abstraction which may<br>include one or some of the following:<br>multiple abstraction points, environmental<br>monitoring, cease-take conditions, annual<br>reports. Water use records provided via<br>telemetry         | \$510.00<br>(\$443.48)                  |
| Consumptive<br>Water use<br>(surface water,<br>groundwater and<br>warm water) –<br>Manual Reporting         | CW MR              | 3 yearly                | Consumptive abstraction which may<br>include one or some of the following:<br>multiple abstraction points, environmental<br>monitoring, cease-take conditions, annual<br>reports. Water use records provided via<br>manual submission | \$580.00<br>(\$504.35)                  |
| Consumptive<br>Water use<br>(surface water,<br>groundwater and<br>warm water) -<br>Manual                   | CW NR              | 3 yearly                | Consumptive water abstraction with no reporting required through the resource consent   | \$115.00<br>(\$100.00)                  |
| Production land -<br>high risk  | ProdLand -<br>high | 1 yearly                | A consent for land use, subject to the management of nutrient loss from that activity.  | \$690.00<br>(\$600.00)                  |
| Production land -<br>medium risk  | ProdLand -<br>med  | 2 yearly                |   | \$345.00<br>(\$300.00)                  |
| Production land -<br>low risk   | ProdLand -<br>low  | 3 yearly                |   | \$230.00<br>(\$200.00)                  |

# Schedule 2A - Consents subject to variable compliance monitoring charges

Frequencies are indicative and will be adjusted according to the risk associated with the individual consent.

| Compliance<br>category                                  | Code         | Inspection<br>frequency | Comments   |
|---|--------------|-------------------------|--|
| Air Discharge - large<br>industry                       | Air Maj      | 3 monthly               | In addition to regular visits, these require very frequent<br>review of compliance returns, technical reports, etc.<br>throughout year.  |
| Aquaculture   | Aqua         | 1 yearly                | Aquaculture monitoring   |
| Bore Installations                                      | Bore Ins     | As required             | Administration only. Generally no site visit undertaken  |
| Coastal structures                                      | Struct       | 10 yearly               | Inspected during construction (A+R) then reduced inspection frequency  |
| Composting Facilities<br>(including<br>vermicomposting) | Compost      | 1 yearly                | Composting and vermicomposting facilities; careful management required to mitigate odour and stormwater contamination issues.  |
| Comprehensive<br>Catchment<br>Stormwater                | CCSW         | 1 yearly                | Regular review of returns and reports  |
| Dewater   | Dewater      | As required             | Short term consents usually associated with earthworks, so inspected during earthworks site visit  |
| Other Disturbance                                       | Disturb      | 5 yearly                | Inspected during works   |
| Diversions  | Div          | As required             | Inspected as per earthworks during construction, then not at all   |
| Dredging  | Dredge       | As required             | Inspected during works   |
| Earthworks  | EW           | As required             | An estimated annual monitoring time has been<br>allocated for this category, as only a portion of all<br>consents are "active" at any one time. Inspections are<br>usually once every month, but can increase or<br>decrease depending on site risk      |
| Forestry  | Forest       | As required             | An estimated annual monitoring time has been<br>allocated for this category, as only a portion of all<br>consents are "active" at any one time. Inspections are<br>once every 2 months, but can increase or decrease<br>depending on site risk           |
| Geothermal<br>Abstractors (Large<br>scale)              | Geol         | 1 yearly                | Complex sites, Peer Review Panels, Community   |
| Hydro Dams  | Hydro        | 1 yearly                | Large hydro schemes are generally well managed,<br>however, impact of non-compliance can be very<br>significant  |
| Industrial Discharges<br>- major                        | ID Maj       | 6 monthly               | These require very frequent review of compliance returns, technical reports, etc. throughout year  |
| Industrial Abstraction<br>- major                       | Ind Maj      | 5 yearly                | As most of these water takes will fall under the NER,<br>inspections can be reduced as records will be good<br>indicator of compliance. Generally inspect the industrial<br>takes at the same time as the industrial discharge<br>consents are inspected |
| Lake structures   | Lake Struct  | 10 yearly               | Inspected during construction (A+R) then reduced inspection frequency. Mainly accessed by boat   |
| Landfills - Open  | Landfill Maj | 6 monthly               | Open landfills and managed cleanfill sites   |
| Mangroves   | Mangrove     | 1 yearly                | Inspected as and when required when removal is taking place  |

| Compliance<br>category                   | Code       | Inspection<br>frequency | Comments   |
|--|------------|-------------------------|--|
| Municipal Abstraction<br>- major         | MA Maj     | 5 yearly                | These water takes will fall under the NER, and as such records will be good indicator of compliance  |
| Municipal Wastewater<br>Treatment Plant  | WWTP       | 6 monthly               | Discharges associated with the operation of community/municipal wastewater treatment plans and services, generally held by district councils   |
| OSET - high risk                         | OSET HR    | 1 yearly                | Small community schemes which service multiple<br>households, systems which service schools,<br>campgrounds, high use marae and community facilities,<br>and other systems with a poor compliance history, older<br>system, and/or sensitive receiving environment |
| OSET – medium risk                       | OSET MR    | 2 yearly                | Systems for small scale commercial properties, intermittent use marae and community facilities   |
| OSET - low risk                          | OSET LR    | 5 yearly                | Systems which service a single residence and have an adequate compliance history   |
| Piggeries                                | Pig        | 2 yearly                | Low risk when managed correctly  |
| Quarries - large<br>commercial           | Quarry Lge | 6 monthly               | Large commercial quarries  |
| Quarries (small)                         | Quarry Sml | 3 yearly                | Example: Forestry, farm quarry   |
| Reclamations                             | Rec        | As required             | Inspected as per earthworks during construction, then not at all   |
| Disturb, excavate<br>foreshore or seabed | Sand       | 5 yearly                | Inspected during works   |
| Spray - herbicides,<br>etc.              | Spray      | 1 yearly                | Inspected on an infrequent basis depending on whether the activity is taking place   |
| Stream structures                        | Stream     | 10 yearly               | Inspected during construction (A+R) then reduced inspection frequency  |
| Stormwater                               | SW         | 10 yearly               | Variety of low risk consents. Generally only monitored at installation, unless issues arise  |

# Schedule 3A - Charges for monitoring under the National Environmental Standards

| Compliance<br>category        | Code   | Inspection<br>frequency | Comments   |
|-------------------------------|--|-------------------------|--|
| Permitted forestry            | NESPF  | As required             | Monitoring of forestry activity which is being undertaken<br>as a permitted activity under the following regulations of<br>the NESPF:  |
|                               |  |                         | at the commencement and for the duration of,<br>earthworks undertaken in accordance with regulation<br>24;   |
|                               |  |                         | during pre-works, construction, and ongoing use and<br>maintenance/removal of river crossings constructed<br>and utilized in accordance with regulation 37;  |
|                               |  |                         | at the commencement, and for the duration of, quarrying undertaken in accordance with regulation 51;   |
|                               |  |                         | at the commencement and for the duration of,<br>harvesting undertaken in accordance with regulation<br>63(2).  |
|                               |  |                         | As a default, inspections during these activities will<br>occur once every 2 months; however, that frequency<br>may increase or decrease at the compliance officer's<br>discretion, depending on the nature of the activity being<br>undertaken, compliance levels and/or risks associated<br>with the site. |
| NESFW Permitted<br>Activities |  |                         | Monitoring of activities undertaken as permitted activities under the NES for Freshwater, including:   |
|                               | NESFW2.3<br>NESFW2.4<br>NESFW3.1<br>NESFW3.2<br>NESFW3.3 |                         | Feedlots and stockholding areas  |
|                               |  |                         | Agricultural intensification   |
|                               |  |                         | Intensive winter grazing   |
|                               |  |                         | Synthetic nitrogen applications  |
|                               |  |                         | Activities relating to natural wetlands  |
|                               |  |                         | Reclamation of rivers  |
|                               |  |                         | Structures affecting fish passage (culverts, weirs and flap-gates)   |

# Data and science charges

# Schedule 1B - Water management

Consents to discharge industrial or process related water and/or contaminants.

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Monitoring of receiving water classification standards where relevant.<br>Small volume, often intermittent.  | \$95.00<br>(\$82.61)             |
| 2    | Minor individual impact but cumulative impacts require monitoring.<br>Monitoring of receiving water classification standards where relevant.<br>Small volume, low concentration waste. May not be continuous.   | \$135.00<br>(\$117.39)           |
| 3    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Regular discharge. Contains contaminants. Volume <20 m³/day.   | \$275.00<br>(\$239.13)           |
| 4    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Range of contaminants. Volume <50 m <sup>3</sup> /day, regular. Discharge to surface water. No impact on other users. For land discharge volume up to 150 m <sup>3</sup> /day increase in contaminant concentration.   | \$695.00<br>(\$604.35)           |
| 5    | <ul> <li>Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Monitoring of receiving water classification standards where relevant. Noticeable effect on resource, other users.</li> <li>Regular discharge volume &lt;100 m³/day. Noticeable effect on resource, other users. Regular discharge volume &lt;100 m³/day. Range of contaminants. For land discharge volume up to 250 m³/day and increase in contaminant concentration.</li> </ul>   | \$2,860.00<br>(\$2486.96)        |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Monitoring of receiving water classification standards where relevant. Significant potential effect on resource, but does not exclude other users. Volume <1,000 m <sup>3</sup> /day. Range of contaminants. For land discharge volume up to 2,000 m <sup>3</sup> /day and increase in contaminant concentration.  | \$5,440.00<br>(\$4,730.43)       |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Major receiving water impact monitoring investigation annually. Report prepared. Monitoring of receiving water classification standards where relevant. Significant potential effect on resource, but does not exclude other users. Volume <10,000 m <sup>3</sup> /day. Range of contaminants. For land discharge, volume up to 20,000 m <sup>3</sup> /day and increase in contaminant concentrations.                                   | \$13,585.00<br>(\$11,813.04)     |
| 8    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Major receiving water impact monitoring investigation annually. Report prepared. Monitoring of receiving water classification standards where relevant. Significant potential effect on resource, but does not exclude other users. Volume <20,000 m <sup>3</sup> /day. Contaminants discharge to receiving waters, utilises significant portion of assimilative capacity of receiving water. Likely to exclude other significant users. | \$27,160.00<br>(\$23,617.39)     |

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 9    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>receiving water impact monitoring investigation annually. Report<br>prepared. Monitoring of receiving water classification standards where<br>relevant. Significant effect on resource, other users.<br>Volume exceeds 20,000 m <sup>3</sup> /day. Contaminants discharge to receiving<br>waters, utilises substantial proportion of assimilative capacity of receiving<br>water. Likely to exclude other significant users. | \$42,745.00<br>(\$37,169.57)     |
| 10   | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>receiving water impact monitoring investigation annually. Report<br>prepared. Monitoring of receiving water classification standards where<br>relevant. Very High Impact; as a result of individual discharge or<br>combined effect with other discharges. Substantial effect on resource or<br>other users. Substantial range of contaminants. Can exclude other<br>significant users.                                      | \$57,010.00<br>(\$49,573.91)     |
| 11   | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>receiving water impact monitoring investigation annually. Report<br>prepared. Monitoring of receiving water classification standards where<br>relevant. Severe impact. The individual discharge has a substantial effect<br>on resources and other users. Substantial range of contaminants.<br>Excludes other significant users. May alter habitat and impact ecosystem.  | \$108,630.00<br>(\$94,460.87)    |

# Schedule 2B - Water management

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Monitoring of receiving water classification standards where relevant. No<br>offsite impacts. Small scale on site disposal. Individual household, up to<br>2m <sup>3</sup> /day.   | \$210.00<br>(\$182.61)           |
| 2    | Minor individual impact but cumulative impacts require monitoring.<br>Monitoring of receiving water classification standards where relevant. No<br>offsite impacts. Small scale on site disposal. Up to 30m <sup>3</sup> /day.  | \$320.00<br>(\$278.26)           |
| 3    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Limited offsite impacts. Small scale communal system. Land based system 30-50m <sup>3</sup> /day.  | \$630.00<br>(\$547.83)           |
| 4    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Potential offsite impacts. Small communal system. 50-100m <sup>3</sup> /day. For land based 50-200 m <sup>3</sup> /day.  | \$1,885.00<br>(\$1,639.13)       |
| 5    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Monitoring of receiving water classification standards where relevant. Potential and occasional offsite impacts. Significant community. Up to 2,000m <sup>3</sup> /day. For land discharge up to 4,000 m <sup>3</sup> /day. No trade wastes.   | \$6,325<br>(\$5,500.00)          |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>receiving water impact monitoring investigation annually. Report<br>prepared. Monitoring of receiving water classification standards where<br>relevant. Moderate impact. Small town treatment system. Potential effect<br>on resource, but does not exclude other users. Limited trade wastes. | \$15,805<br>(\$13,743.48)        |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>receiving water impact monitoring investigation annually. Report<br>prepared. Monitoring of receiving water classification standards where<br>relevant. Moderate impact. Medium scale treatment system. Identifiable<br>effects on resource, but does not exclude other users. Trade wastes.   | \$31,570<br>(\$27,452.17)        |
| 8    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>receiving water impact monitoring investigation annually. Report<br>prepared. Monitoring of receiving water classification standards where<br>relevant. Moderate to high impact. Identifiable effects on resource, can<br>exclude other users. Significant trade wastes.                       | \$66,390.00<br>(\$57,730.43)     |

## Consents to discharge sewage related water and/or contaminants

# Schedule 3B - Water management

# Consents to discharge agricultural related water and/or contaminants

| Step | Examples   | Charge<br>Incl GST<br>(Excl GST) |
|------|--|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. No offsite impacts. Land discharge <20 m <sup>3</sup> /day.   | \$265.00<br>(\$230.43)           |
| 2    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Discharge to surface water and land discharge >20 m <sup>3</sup> /day. Potential effect on resource, but does not exclude other users.  | \$295.00<br>(\$256.52)           |
| 3    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Small to moderate impact. Some impact on resource, minimal impact on other users.   | \$1,170.00<br>(\$1,017.39)       |
| 4    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Monitoring of receiving water classification standards where relevant. Moderate impact. Utilises significant amount of receiving water capacity. May impact on other users. <50 m <sup>3</sup> /day.  | \$4,380.00<br>(\$3,808.70)       |
| 5    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major receiving<br>water impact monitoring investigation annually. Report prepared. Monitoring of<br>receiving water classification standards where relevant. Moderate to high impact.<br>Utilises substantial amount of receiving water capacity. Excludes other users. | \$7,285.00<br>(\$6,334.78)       |

# Schedule 4B - Water management

# Consents to discharge stormwater, quarrying, dredging, leachate and miscellaneous related water and/or contaminants

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Monitoring of receiving water classification standards where relevant. No<br>offsite effects. Land based disposal only.  | \$200.00<br>(\$173.91)           |
| 2    | Minor individual impact but cumulative impacts require monitoring.<br>Monitoring of receiving water classification standards where relevant. Low<br>concentration of limited contaminants. Intermittent discharge.<br>Insignificant   | \$395.00<br>(\$343.48)           |
| 3    | Individual and cumulative impacts require monitoring. Monitoring of receiving water classification standards where relevant. Small Impact. Low concentration of limited contaminants. Intermittent to regular discharge.  | \$580.00<br>(\$504.35)           |
| 4    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Monitoring of<br>receiving water classification standards where relevant. Moderate impact.<br>Minor effect on resource. Does not exclude other users. Low to medium<br>concentration of limited contaminants. Intermittent to regular discharge.            | \$1,430.00<br>(\$1,243.48)       |
| 5    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Monitoring of<br>receiving water classification standards where relevant. Moderate to<br>significant impact. Has impact on resource and may affect other users.<br>Increase in concentration and number of contaminants discharged.                         | \$4,785.00<br>(\$4,160.87)       |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Monitoring of<br>receiving water classification standards where relevant. Significant impact. Has<br>impact on resource, can exclude other users. Can have impact on biota and alters<br>habitat. May contain toxic substances.                             | \$14,315.00<br>(\$12,447.83)     |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Major receiving water impact monitoring investigation annually. Report prepared. Monitoring of receiving water classification standards where relevant. Major impact. Has impact on resource, can exclude other users. Has impact on biota and alters habitat. | \$30,130.00<br>(\$26,200.00)     |

# Schedule 5B - Water management

| Step | Examples   | Charge<br>Incl GST<br>(Excl GST) |
|------|--|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring. No foreign contamination.  | \$50.00<br>(\$43.48)             |
| 2    | Reinjection (Rotorua Geothermal Field), small volume <25 m³/day.<br>Regular discharge.   | \$0                              |
| 3    | Soakage (Rotorua Geothermal Field), small volume <25 m <sup>3</sup> /day. Regular discharge. Minor individual impact but cumulative impacts may require monitoring. Minor impact. No foreign contamination.  | \$85.00<br>(\$73.91)             |
| 4    | Reinjection (Rotorua Geothermal Field), volume <250 m³/day. Regular discharge.   | \$0                              |
| 5    | Soakage (Rotorua Geothermal Field). Regular discharge. Volume <250 m <sup>3</sup> /day. Individual and cumulative impacts require monitoring. Small impact. No foreign contamination.  | \$220.00<br>(\$191.30)           |
| 6    | Reinjection (Rotorua Geothermal Field), volume <500 m <sup>3</sup> /day. Regular discharge.  | \$0                              |
| 7    | Soakage (Rotorua Geothermal Field). Regular discharge. Volume <500 m <sup>3</sup> /day. Individual and cumulative impacts require monitoring. Small to moderate impact. No foreign contamination.  | \$900.00<br>(\$782.61)           |
| 8    | Reinjection (Rotorua Geothermal Field), volume <2,000 m³/day. Regular discharge.   | \$0                              |
| 9    | Soakage (Rotorua Geothermal Field). Regular discharge. Volume <2,000 m <sup>3</sup> /day. Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate impact. No foreign contamination. Has potential to affect resource or other users. | \$2,255.00<br>(\$1,960.87)       |
| 10   | Discharge to reinjection. Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate impact. No foreign contamination. May affect resource and other users. Regular discharge. Volume <5,000 m <sup>3</sup> /day.                       | \$4,525.00<br>(\$3,934.78)       |
| 11   | Discharge to reinjection. Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. High impact. No foreign contamination. Resource affected. Can exclude other users. Volume>5,000 m <sup>3</sup> /day.  | \$11,290.00<br>(\$9,817.39)      |

# Consents to discharge warm water/geothermal fluid into the ground

# Schedule 6B - Water management

## Consents to take surface water

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Includes environmental protection or enhancement activities. Plentiful<br>resource 0-250 m <sup>3</sup> /day. Frost protection - up to 1,000 m <sup>3</sup> /day.  | \$125.00<br>(\$108.70)           |
| 2    | Minor individual impact but cumulative impacts require monitoring.<br>Includes environmental protection or enhancement activities. No<br>significant impact on other users. Plentiful resource 250-500 m <sup>3</sup> /day.<br>Frost protection - up to 2,000 m <sup>3</sup> /day.  | \$240.00<br>(\$208.70)           |
| 3    | Individual and cumulative impacts require monitoring. Small impact.<br>Some impact on flow particularly in combination with other users. Not<br>detrimental to in-stream values. 500-1,000 m <sup>3</sup> /day. Frost protection - up<br>to 3,000 m <sup>3</sup> /day.  | \$450.00<br>(\$391.30)           |
| 4    | Individual and cumulative impacts require monitoring. Small to moderate impact. Impact on flow may exclude other users. 1,000-2,000 m <sup>3</sup> /day (municipal and industrial takes). Up to 5,000 m <sup>3</sup> /day (irrigators). Frost protection - >3,000 m <sup>3</sup> /day.  | \$1,805.00<br>(\$1,569.57)       |
| 5    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate impact. Impact on flow may exclude other users. May be detrimental to instream values. Up to 10,000 m <sup>3</sup> /day.  | \$4,645.00<br>(\$4,039.13)       |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate to large impact.<br>Significant abstraction. Can have impacts on the resource and other users. Up to 30,000 m <sup>3</sup> /day.  | \$13,905.00<br>(\$12,091.30)     |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Major<br>resource impact monitoring investigation annually. Report prepared. High<br>impact. Significant water abstraction.<br>Has significant impact on resource. Up to 50,000 m <sup>3</sup> /day.  | \$23,180.00<br>(\$20,156.52)     |
| 8    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity require specific monitoring techniques. Major resource<br>impact monitoring investigation annually. Report prepared. High impact.<br>Significant water abstraction.<br>Has significant impact on resource. Up to 100,000 m <sup>3</sup> /day.   | \$46,460.00<br>(\$40,400.00)     |
| 9    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity require specific monitoring techniques. Major resource impact monitoring investigation annually. Report prepared. Substantial impact. Has significant impact on water availability and capacity to receive discharges. Utilises large proportion of stream flow >10% of Q5. Potential to exclude other users. Up to 200,000 m <sup>3</sup> /day. | \$92,565.00<br>(\$80,491.30)     |

Note: these charges vary depending on the volume of water permitted to be taken under the consent and apply regardless of whether the allocation is being used.

# Schedule 7B - Water management

# Consents to take groundwater (including geothermal, where take is for a consumptive use, such as irrigation)

| Step | Examples   | Charge<br>Incl GST<br>(Excl GST) |
|------|--|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Plentiful resource. Up to 250 m3/day. Frost protection - up to 1,000 m <sup>3</sup> /day.   | \$240.00<br>(\$208.70)           |
| 2    | Minor individual impact but cumulative impacts require monitoring. No significant impact on other users. Plentiful resource. Up to 500 m <sup>3</sup> /day. Frost protection - up to 2,000 m <sup>3</sup> /day.  | \$485.00<br>(\$421.74)           |
| 3    | Individual and cumulative impacts require monitoring. Small impact.<br>Resource may be limited. Can impact other users. Up to 1,000 m <sup>3</sup> /day.<br>Frost protection - up to 3,000 m <sup>3</sup> /day.  | \$860.00<br>(\$747.83)           |
| 4    | Individual and cumulative impacts require monitoring. Moderate impact.<br>Resource may be limited. Can impact resource and other users. Up to<br>2,000 m <sup>3</sup> /day (municipal and industrial takes). Up to 5,000 m <sup>3</sup> /day<br>(irrigators). Frost protection ->3,000 m <sup>3</sup> /day.                          | \$3,455.00<br>(\$3,004.35)       |
| 5    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate impact. Other users potentially affected. Resource may be impacted. Up to 5,000 m <sup>3</sup> /day (municipal and industrial takes). Up to 7,500 m <sup>3</sup> /day (irrigators).  | \$4,855.00<br>(\$4,221.74)       |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate to large impact. Other users affected or excluded. Resource impacted. Up to 10,000 m <sup>3</sup> /day.  | \$9,130.00<br>(\$7,939.13)       |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Major resource impact monitoring investigation annually. Report prepared. Large impact. Other users affected or excluded. Resource impacted. Up to 30,000 m <sup>3</sup> /day.                | \$26,770.00<br>(\$23,278.26)     |
| 8    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity require specific monitoring techniques. Major resource impact monitoring investigation annually. Report prepared. Major impact. Localised effect on complex resource. Can limit or exclude other users. Up to 50,000 m <sup>3</sup> /day. | \$44,645.00<br>(\$38,821.74)     |

Note: these charges vary depending on the volume of water permitted to be taken under the consent and apply regardless of whether the allocation is being used.

# Schedule 8B - Water management

# Consents to take geothermal fluid and geothermal heat/energy

| Step | Examples   | Charge<br>Incl GST<br>(Excl GST) |
|------|--|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Geothermal fluid <5 m³/day. Warm water bores (Tauranga Field) <25 m³/day.   | \$65.00<br>(\$56.52)             |
| 2    | Minor individual impact but cumulative impacts require monitoring. No significant impact on other users. Geothermal fluid <25 m³/day. Downhole heat exchangers < 5 kw. Warm water bores (Tauranga Field) <100 m³/day.  | \$95.00<br>(\$82.61)             |
| 3    | Individual and cumulative impacts require monitoring. Small impact.<br>Resource may be limited. Can impact other users. Geothermal fluid < 50 m³/day. Down-hole heat exchangers >5 kw. Warm water bores (Tauranga Field) >100 m³/day.  | \$145.00<br>(\$126.09)           |
| 4    | Individual and cumulative impacts require monitoring. Moderate impact.<br>Resource may be limited. Can impact resource and other users.<br>Geothermal fluid <150 m <sup>3</sup> /day.  | \$825.00<br>(\$717.39)           |
| 5    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate impact. Other users potentially affected. Resource may be impacted. Geothermal fluid <350 m <sup>3</sup> /day.   | \$2,455.00<br>(\$2,134.78)       |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Moderate to large impact. Other users affected or excluded. Resource impacted. Geothermal fluid <2,000 m <sup>3</sup> /day.   | \$6,115.00<br>(\$5,317.39)       |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Major resource impact monitoring investigation annually. Report prepared. Large impact. Other users affected or excluded. Resource impacted. Geothermal fluid up to 20,000 m <sup>3</sup> /day            | \$12,210.00<br>(\$10,617.39)     |
| 8    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity require specific monitoring techniques. Major resource impact monitoring investigation annually. Report prepared. Major impact. Localised effect on complex resource. Can limit or exclude other users. Geothermal fluid >20,000 m <sup>3</sup> /day. | \$29,305.00<br>(\$25,482.61)     |

# Schedule 9B - Water management

# Consents to dam and/or divert

| Step | Examples   | Charge<br>Incl GST<br>(Excl GST) |
|------|--|----------------------------------|
| 1    | Negligible individual impact but cumulative impacts require monitoring.<br>Intermittent flood control, permanent stream diversions and realignments.<br>Environmental protection or enhancement activities. Dams:- less than 1.5<br>m. Diversions: - mean stream flow less than 0.5 m <sup>3</sup> /sec.   | \$125.00<br>(\$108.70)           |
| 2    | Minor individual impact but cumulative impacts require monitoring. No significant impact on resource. No impact on in-stream values. Permanent stream diversions and realignments. Environmental protection or enhancement activities. Dams:- less than 3 m. Diversions:- mean stream flow   | \$190.00<br>(\$165.22)           |
| 3    | <ul> <li>Individual and cumulative impacts require monitoring. Small impact.</li> <li>Potential effect on resource. Some impact on in-stream values on a more sensitive stream/river.</li> <li>Permanent stream diversions and realignments. Dams:- less than 3 m. Diversions:- mean stream flow less than 2 m<sup>3</sup>/sec.</li> </ul>   | \$355.00<br>(\$308.70)           |
| 4    | Individual and cumulative impacts require monitoring. Small impact. Effect on resource. Some impact on in-stream values. Permanent stream diversions and realignments. Dams:- less than 5 m. Diversions:- mean stream flow less than 10 m <sup>3</sup> /sec. Diversion of water (power schemes) less than 10% of mean flow of river system.  | \$1,045.00<br>(\$908.70)         |
| 5    | <ul> <li>Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Small to moderate impact.</li> <li>Significant effect on resource. Impact in-stream values. Ecosystem impacts. Minimal compensation flow. Dams:- less than 10 m. Diversions:- (a) Permanent stream diversions and realignments - mean stream flow less than 20 m<sup>3</sup>/sec. (b) Diversion of water (power scheme) less than 20% of mean flow of river system.</li> </ul> | \$2,810.00<br>(\$2,443.48)       |
| 6    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity may require specific monitoring techniques. Moderate<br>impact. Impacts flow regime of part of catchment. Significant impact on<br>stream ecosystem and in-stream values. Limits and may exclude other<br>users. Diversion of water (power schemes) less than 30% of mean flow of<br>river system.   | \$8,100.00<br>(\$7,043.48)       |
| 7    | Individual and cumulative impacts require monitoring. Impacts of consent holder's activity may require specific monitoring techniques. Major resource impact monitoring investigation annually. Report prepared. Large impact. Other users affected or excluded. Resource impacted. Geothermal fluid up to 20,000 m <sup>3</sup> /day.   | \$14,045.00<br>(\$12,213.04)     |
| 8    | Individual and cumulative impacts require monitoring. Impacts of consent<br>holder's activity require specific monitoring techniques. Major resource<br>impact monitoring investigation annually. Report prepared. Large impact.<br>Impacts flow regime of part of catchment. Substantial impact on stream<br>ecosystem and in-stream values. Likely to exclude other users. Diversion<br>of water (power schemes) greater than 50% of mean flow of river system.  | \$24,570.00<br>(\$21,365.22)     |

# Schedule 10B - Air management

## Consents to discharge contaminants into air

| Step | Examples   | Charge<br>Incl GST<br>(Excl GST) |
|------|--|----------------------------------|
| 1    | Small landfills  | \$95.00<br>(\$82.61)             |
| 2    | Sand blasters, small incinerators. Predominantly former Class "B" processes. Medium/large sewage plant air discharges. | \$440.00<br>(\$382.61)           |
| 2a   | Spray painters. Small/medium sewage plant air discharges.  | \$95.00<br>(\$82.61)             |
| 3    | Hot dip <sup>32</sup> galvanising. Asphalt manufacture.  | \$440.00<br>(\$382.61)           |
| 4    | Rendering plants and pet food factories.   | \$1,195.00<br>(\$1,039.13)       |
| 5    | A range of chemical processes. Larger boiler plant.  | \$2,960.00<br>(\$2,573.91)       |
| 6    | A range of chemical processes with higher risk of offsite effects.   | \$8,865.00<br>(\$7708.70)        |
| 7    | Fertiliser manufacturing plant.  | \$17,735.00<br>(\$15,421.74)     |
| 8    | Major pulp and paper mill.   | \$35,450.00<br>(\$30,826.09)     |
| 9    | Activities on port land.   | Actual and reasonable charges*   |

\* Actual and reasonable costs include, but are not limited to; staff time at the staff charge out rates details in Schedule A, sampling and testing costs and any specialist advice needed.

# Schedule 11B - Coastal management

## Coastal consents (other than takes and discharges)

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 1    | No charge as there is no specific regional/impact monitoring programme associated with this category of consents. | \$0                              |
| 2    | Aquaculture – marine farms <10 hectare consented area.  | \$165.00<br>(\$143.48)           |
| 3    | Aquaculture – marine farms >10 hectare consented area.  | \$1,665.00<br>(\$1,447.83)       |

Note: The Data and Science chargers for marine farms apply from the time the consent is exercised (i.e.: once marine farm equipment is installed in the water) and are based on the area consented.

# Schedule 12B - Land use management

## Land use consents

| Step | Examples  | Charge<br>Incl GST<br>(Excl GST) |
|------|---|----------------------------------|
| 1    | Minor earthworks not covered by Steps 2-6 (e.g. installation of structures such as culverts and jetties). | \$0                              |
| 2    | Earthworks and forestry operations <1 hectare (total land area covered under the consent).                | \$305.00<br>(\$265.22)           |
| 3    | Earthworks and forestry operations 1-10 hectares (total land area covered under the consent).             | \$925.00<br>(\$804.35)           |
| 4    | Earthworks and forestry operations >10 hectares (total land area covered under the consent).              | \$1,805.00<br>(\$1,569.57)       |
| 5    | Quarries <2 hectare (total land area allowed to be worked under the consent).                             | \$370.00<br>(\$321.74)           |
| 6    | Quarries >2 hectare (total land area allowed to be worked under the consent).                             | \$580.00<br>(\$504.35)           |

Note: Earthworks include those associated with land development, tracks, roads, forestry, vegetation clearance, disturbance of contaminated land, and rehabilitation works. It does not include consents for installation of structures (e.g. culverts and jetties).
