Attention: Marlene Bosch

Dear Marlene

Resource Consent Application: Lawter air discharge replacement application

Please find attached an application to replace Lawter's existing air discharge consent 61693-AP, including the assessment of environmental effects prepared in accordance with Schedule 4 of the Resource Management Act 1991. Also attached is completed Form 4C – discharge contaminants to air. The consent processing application fee of \$2,700 has been paid separately by Lawter.

We appreciate that it is a busy time in the lead up to Christmas and are comfortable with BoPRC extending the timeframe to enable a s88 determination. We consider that the application meets the requirements of s88(3) being a complete application suitable for notification as requested by the applicant.

Please let me know if you have any questions regarding the application. My last day in the office before Christmas is 20 December 2019, returning on 6 January 2020.

Yours sincerely

Romae Calland
Principal Planner
